

Scout Environment Awareness Program. (SEAP)

The WA Branch is currently seeking keen, energetic Rovers, Leaders and community members to take on an active role in the SEAP Fellowship.

If you have good knowledge in and/or are trained in the Environmental Sciences then please consider in assisting in this important part of our Scouting program.

SEAP is about helping all members in Scouting to get out and learn more about our precious environment.

SEAP is an important part of the Scout program in all levels. It develops and delivers environmental awareness programs to each Section ensuring that Scouts look after the environment and contribute towards the future of our planet.

Please contact Vern Casey, (Branch Commissioner – Program Support) with your expression of interest vlcasey@hotmail.net.au
